Hive Happenings...

Dates to Remember

HALF WAY DONE!

We have had a wonderful and productive first half of the school year. The children have worked very hard developing their fine motor skills. We have tackled the difficult tasks of cutting, writing, gluing, and tearing. So far working on their cognitive development, they have learned about patterns, sequencing, graphing, size differentials, one to one correspondence activities, beginning and rhyming sounds, as well as, number, color, letter and shape recognition – just to name a few! ☺ (We have been VERY BUSY!)

This second semester will offer more challenges. We will expose the children to measurement, estimation, positional words, and opposites. They will also have the opportunity to continue their development in all of the areas introduced in the first semester. The children have been amazing with all their creative art work. You might find skills work sheets they've completed in class. Some of you may also receive lots of paper strips stapled together. This shows we were working on cutting to enhance our fine motor skills.

Thank You for all you do at home to help reinforce these skills at home. Children succeed when they know you care if they do!

BUZZ!!

February 12th

Valentine's parties will be Mon./Tues. the 13th/14th. If your child would like to pass out cards or goodie bags to the class, have them write their name in the 'from' area only. They will give one to everyone in no particular order. Please do not address the "To" for any individual student. This helps to ensure we have enough time to let each child pass out their own valentines.

Important Class Information:

Please keep checking the bulletin board and cart (just outside our classroom) DAILY for any sign-up sheets, newsletters, calendars, and other important information. Valentine Party List is posted!
